disproportionately divert the resources of the public authority or may cause harm to the safety or preservation of the records, supply of information in that form may be denied.

13. In some cases, the applicants expect the Public Information Officer to give information in some particular proforma devised by them on the plea that they have a right to get information in the form in which it is sought. It need be noted that the provision in the Act simply means that if the information is sought in the form of photocopy, it shall be provided in the form of photocopy, or if it is sought in the form of a floppy or in any other electronic mode, it shall be provided in that form, subject to the conditions given in the Act. It does not mean that the PIO shall re-shape the information.

14. Some Information Seekers request the Public Information Officers to cull out information from some document(s) and give such extracted information to them. A citizen has a right to get 'material' from a public authority which is held by or under the control of that public authority. The Act, however, does not require the Public Information Officer to deduce some conclusion from the 'material' and supply the 'conclusion' so deduced to the applicant. It means that the Public Information Officer is required to supply the 'material' in the form as held by the public authority, but not to do research on behalf of the citizen to deduce anything from the material and then supply it to him.

### **Right to Information Vis-a-Vis other Acts**

15. The RTI Act has over-riding effect vis-à-vis other laws. It implies that if any of the provisions of the RTI Act are not consistent with any other law for the time being in force including the Official Secrets Act, 1923, the provisions of the RTI Act would have effect.

### **Supply of Information to Associations etc.**

16. The Act gives the right to information only to the citizens of India. It does not make provision for giving information to Corporations, Associations, Companies etc. which are legal entities/persons, but not citizens. However, if an application is made by an employee or office-bearer of any Corporation, Association, Company, NGO etc. indicating his name and such employee/office bearer is a citizen of India, information may be supplied to him/her. In such cases, it would be presumed that a citizen has sought information at the address of the Corporation etc.

### **Fee for Seeking Information**

17. A citizen who desires to seek some information from a public authority is required to send, along with the application, a demand draft or a bankers cheque or an Indian Postal Order of Rs.10/- (Rupees ten), payable to the Accounts Officer of the public authority as fee prescribed for seeking information. The payment of fee can also be made by way of cash to the public authority or to the Assistant Public Information Officer, against a proper receipt. The payment of fee to the Central
